

Stay with me

by Petra Meyer-Krüger

1. No language in this world could explain
No words no songs i'll ever sing never explain
The speech of my heart when tender you dry my tears

I believe the sence of searching rainbow end
If when i close my eyes could taste your velvet skin
And i bow surrundin' my head and my mind in love

Please stay a little while with me, i' m so near and so far
Please let us both agree, of cause we are
Two in a bigger world, let it know everyone
You and me are a part of it, and we'll gonna be one

2. Feeling something inside overflow
Close my eyes and breath the life inside your
Body and soul which are miricoules and true

When every step i take are million of miles
And every moove i make are still charming lies
But the look in your eyes doesn't admit of doubt

Please stay a little while with me, i' m so near and so far
Please let us both agree, of cause we are
Two in a bigger world, let it know everyone
You and me are a part of it, and we'll gonna be one
